Sheet 2-2
3 Operate by Easy4ip APP

Step 1
Power on the device with power adapter.

Step 2
Connect your smart phone to your WiFi network. Scan the “Easy4ip APP” QR on the packing box, download and install the Easy4ip APP.

Step 3
Open Easy4ip APP (take IOS as an example), tap login to login the APP (Please register for first use).

Step 4
Tap “+” to add devices.

Step 5
Please select “Wired” when the network cable is connected, select “Wireless” for wireless connection. Here is an example of wireless connection.
Step 6
Name the camera and scan the QR code (on the bottom of the device chassis) on camera.
Step 7
Input the Wi-Fi password.

![Add WiFi Device](image)

Step 8
Waiting for 60s to finish the Wi-Fi connection.
Note: If you want to change the Wi-Fi signal, please reset the camera to factory default and repeat step 5-8;
4 Device Installation

Important
Before the installation, please make sure the installation environments can at least support 3x weight of the camera.
